State(s): IL
Congressional District(s): IL-16

Status

The project was completed in 2004 and a dedication ceremony was held on August 2, 2004. Fiscal close out of the project is complete.

Description

Construction of the Loves Park Creek Flood Protection Project Has been completed It a part of a joint effort between the City of Loves Park and the Rock Island District of the U.S. Army Corps of Engineers (Corps) to protect commercial, industrial and residential areas from recurrent flooding. The project provides 100-year flood protection for the City of Loves Park by diverting excess runoff to existing lakes and by increasing the carrying capacity of Loves Park Creek. The project consists of approximately 18,000 lineal-feet of improved channels and includes 236 acre-feet of storm water runoff flood storage in the Windsor Lake system. With its completion the project has substantially reduced flood damages to the City of Loves Park.
